

The Development of Mediumship and the Spiritual Life

Tools for the Journey

With Leonard Tatt

Over the coming weeks we will be looking at the development of mediumship and the spiritual life. Each week we will print an article looking at what the spiritual journey is, how to develop mediumship and identifying some key tools and attitudes of mind that will help us be the best instrument that we can be for the spirit world to work through.

Although each article will stand alone, it is hoped that at the end of the process that we will be able to collate the articles into a book and use them to help as many students as possible. It may prove to be a long road, the development of mediumship is never easy and it is one in which there will be disappointments, setbacks, obstacles and resistance, both from within and without and writing about that journey in depth is no easy task.

The development of mediumship is a journey that can bring a great deal of joy and fulfilment that can change the lives, not just of ourselves and other people, but of the world. So firstly, I want to begin by looking at the spiritual journey and the development of mediumship, what it is and what we need to do before we set out on the road.

*Available on our website and under **TEACHINGS AND LECTURES**
for the full weekly article*

*An ideal opportunity at this time to develop and
understand Spiritualism & mediumship*
